501-1,000	\$15	\$15,000
1,001-2,000+	\$12	\$24,000+

**Everywhere Wireless** and its affiliate, EW Fiber, provide the highest quality data solutions available to residential buildings. As high speed Internet becomes increasingly obsolete, EW's Fiber-Speed Internet provides its customers with the scalable solutions they need to protect their futures.

We are always looking for new properties that could benefit from dedicated, wholesale, fiber optic Internet services. This is where you come in. If you refer us to a property manager, association or management company who eventually enters into an EW service agreement, we will pay you! Becoming an EW partner is a strategic approach to leveraging your existing relationships and increasing your visibility with your presence on our website.

**Apply to Become an EW Partner Today, by Calling**
